

TRANSFORM THE WAY YOU GROW

We understand the importance of having access to real-time, accurate, and trusted crop information that is easily accessible and available in one place.

That's why we created CultivateAI, an all-inclusive software that provides AG Operations the ability to make informed, data-driven decisions—anytime, anywhere.

Whether it's comparing product performance or pinpointing plant stress during a season, or reporting and invoicing in the off-season, CultivateAI is the software every AG Operation needs to enhance their farm management now and in the future.

SOFTWARE

Capture, review and record your production activities while managing insights and inventories in real time.

Inventory

- Field Boundaries
- AG Asset Conditions
- AG Operations
- Plant Locations

Imagery

- Drone, Aerial & Satellite
- Plant Health Monitoring
- Identify Plant Damage
- Plant Counting

Insights

- Production Summaries
- Product Performance
- Operation Invoicing
- Cost Analysis

SERVICES

Reduce time in the field with fast crop scouting, mapping and real-time data integration.

Drone Capture

- FAA Certified Pilots
- Monitor Crop Health
- Measure Crop Growth
- AG Property Inventory

GIS (mapping)

- Field Boundaries
- Operations
- Plant Locations
- Irrigation Inventory

Data Integration

- Machine IoT Data
- Live GPS Tracking
- AG Products

YOUR DIGITAL TRANSFORMATION. **DELIVERED.**

With our services staff expertise in IT and GIS, we'll help you transform digitally, both in-field and in-office.

DRONE CAPTURE **HIDDEN PLANT HEALTH. REVEALED.**

We hire certified FAA Pilots and use professional grade drones with Near-Infrared sensors to capture high resolution, 3D, spatial and spectral detail of your land. Visualize and digitize your operation with GIS maps including accurate asset locations, plant counts and vegetation health.

SCOUTING APP **YOUR RECORDS. REAL TIME. ONE PLACE.**

Whether you're a private farm operator, Ag Service Provider, Agronomist, or University Researcher – The CultivateAI Mobile Scouting App allows you and your team to document location-specific, in-field information and record Harvest or Spray records on a mobile phone, in real-time.

PROPERTY MAP APP **CUSTOMER EXPERIENCE. SIMPLIFIED.**

Give your guests the confidence of knowing where they are, and what they're looking for on your property, with the CultivateAI Digital Property Map App. This mobile application allows guests to see your private roads, landmarks, attractions, boundary lines and their location within your property, on their mobile phone; even without cell service.
