

Drone Collection Services

CultivateAGI.com

WHAT TO EXPECT

1. DEFINE COLLECTION AREA

Before the collect, a CultivateAI account manager will work with your organization to create the following:

- Define collection areas
- Convert Paper Maps to Digital Boundaries
- Create Flight Lines Within Boundaries
- Complete FAA Approvals for the flight and file for any exemptions required.

2. COLLECTION SETUP

Upon Arrival, our drone collection team will meet with the property manager and request access to the collection areas.

Once on site, the team will complete the following setup:

- Place Ground Control Points (GCP) panels as needed
- Check Wind and Weather
- Evaluate airspace and on-site obstacles

3. COLLECTION

After Setup and all pre-flight successfully checks pass, the flight will begin!

During collection our team will continually monitor:

- Drone's location and equipment health
- Weather & Airspace conditions

4. DELIVER IMAGERY

Once the collection is complete, the imagery will be processed and delivered in your data silo.
