

INTRODUCING THE

CULTIVATE ADVANTAGE PROGRAM (CAP)

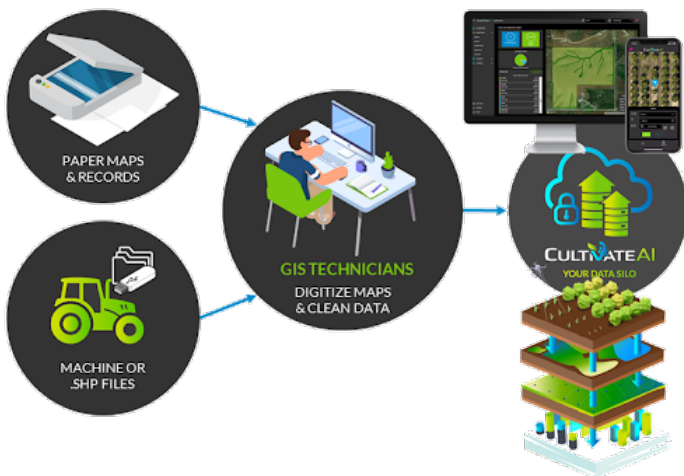

GIS & MAPPING SERVICES

Let us partner with you in making your organization successful, with the Cultivate Advantage Program (CAP). The CAP is an annual subscription that assigns your organization a dedicated Geospatial Information Service (GIS) Advisor and technician. This advisor will work with you to understand your existing systems and data conversion needs. They will then lead our GIS technicians in digitizing maps and generating reports that meet your goals.

ADVANTAGES

FROM PAPER TO DIGITAL

With the guidance from your GIS Advisor and the help of our GIS technicians, we'll convert and clean physical files into digital maps and records that can be accessed anytime, anywhere on web or mobile devices using CultivateAI's cloud-based software.

PACKAGE LEVELS & HOURS FOR CAP

Choose the annual subscription that is best for your organizations needs.

50 HOURS

SMALL

Monthly check-ins + GIS tech hours

150 HOURS

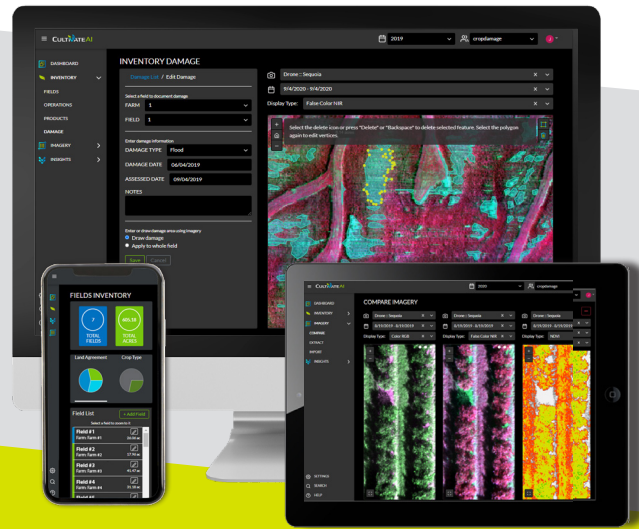

MEDIUM

Bi-weekly check-ins + GIS tech hours

300 HOURS

LARGE

Bi-weekly check-ins + GIS tech hours

WHAT YOU GET

Annual Subscription: Purchase the annual subscription package that works best for your needs. You can use the allotted hours within your package on small projects each month, or save them to use on a larger project at the end of the year, or years to come.
